

### Presentation and Networking Event

**Angela G. Küpper**

Director | Principal Geotechnical Engineer | BGC Engineering

## Tailings Management Where Are We Today & Where Do We Go from Here?

*Tailings management continues to evolve in response to heightened safety expectations, advancing technologies, and growing regulatory and societal scrutiny. While the industry has made important strides, critical challenges remain. In this presentation, Dr. Angela Küpper provides an overview of where tailings management stands today and explores what is required to move forward responsibly.*

Thursday, 5 February 2025
