

Queensland Tailings Group Top Minds, Top Questions: Women in Tailings Industry Event

Join us for an interactive session designed to connect, inspire, and share perspectives across the industry.

Women across all areas of the tailings and mining industry are invited to engage in a collaborative and inclusive environment where they can hear diverse perspectives, contribute to open and thought-provoking discussions, and connect with others across the industry to build meaningful professional relationships.

This is a fast-paced and engaging session format where selected participants each bring a multiple-choice question related to technical topics, career development, or broader industry issues. Attendees respond in real time using Mentimeter, creating an interactive and dynamic experience. Each question is followed by a brief discussion, allowing the group to explore insights, share perspectives, and build collective understanding.

Tue, 23 June 2026
